

This is our current major works programme for the next 5 years.

This includes details of all planned infills and demolitions, and details of the larger repair schemes, which make up a small proportion of our overall programme of maintenance to keep structures safe.

In addition to the schemes listed in this programme, we also carry out between 300 and 500 pieces of minor planned and reactive maintenance on the Historical Railway Estate each year. This work varies from structural repairs, vegetation removal, to repairing vehicle impact damage.

We have included structures where an assessment, or updated assessment, is required, either because of a change in use, loading or condition, or simply because the previous report was undertaken a long time ago and needs updating. In these cases, the structure may subsequently be assessed as having adequate capacity, and so will need no remedial works. However, until the assessment has been undertaken, there is no guarantee that works will not be needed. So, for this reason, they have been included.

We have also included structures where infilling may be one of several options, and structures where we have paused progressing a scheme to explore transfer, repurposing or reuse.

Our programme of major works will develop over time and the information published here subject to change. Also, as assessments are undertaken, and examinations carried out, there may be a need to accelerate certain works in order to keep structures safe for people and traffic that use them and the land around them.

We will ensure that we publish an updated programme regularly.

ELR/No.	Name	County	Works	section* below for definitions)	Planned start of work date	Notes
AEB/2116	Debden Road	Essex	Infill	Design	On Hold - TBC	
AEB/2122	Painters Bridge	Essex	Infill	Design	On Hold - TBC	
AGB/3	Luffness Mains	East Lothian	Infill	Design	On Hold - TBC	
AGB/5	Fenton	East Lothian	Infill	Design	On Hold - TBC	
AHS/12	Lintfield Bank	South Lanarkshire	Infill	Design	On Hold - TBC	Partially infilled already.
AIW/78	Stoke Road Bridge	Hampshire	Infill	Design	On Hold - TBC	Repeat infill, previous infill removed by farmer.
AKC/35	Haugh Head Wooler	Northumberland	Infill	Start of work to be scheduled	On Hold - TBC	
AKC/73	Whittingham Station	Northumberland	Infill	Design	On Hold - TBC	
ANB/4	Tilekiln	Dumfries & Galloway	Potential Transfer			
AND/147	Greyhound Bridge	Gloucestershire	Demolition	Design	On Hold - TBC	Demolition of abutments only
AND/18	Collingbourne Ducis	Wiltshire	Demolition	Start of work to be scheduled	On Hold - TBC	Demolition of abutments only
ARB/10	Great Alne	Warwickshire	Infill	Design	On Hold - TBC	
AYH/1	Limekiln Road	South Ayrshire	Infill	Design	On Hold - TBC	
BCL/100m33ch	Syreford Road bridge, near Andoversford	Gloucestershire	Infill	Design	On Hold - TBC	
BCL/96m79ch	Crows Castle	Gloucestershire	Maintenance options under development	Design	On Hold - TBC	
BGB/6	Brasenose Road Tunnel	Liverpool	Infill	Design	On Hold - TBC	Partially infilled already, infilling on unaccessible void to be completed
BHL/85m38ch	Devizes Castle / Hillworth Rd	Wiltshire	Infill	Design	On Hold - TBC	
BKN/10	Westfield Viaduct	West Lothian	Repairs	Work on site underway	Jun-21	Waterproofing and repairs
BLN/8	Caythorpe Station	Lincolnshire	Infill	Design	On Hold - TBC	
BMZ/6A	Glyngwr sidebridge over Ogwr Fach	Bridgend	Repairs	Work on site underway	21/22	
BNK/42	Halt Farm	Oxfordshire	Demolition	Start of work to be scheduled	On Hold - TBC	Demolition of abutments only.
BOK1/283	Dalston Lane	Hackney	Infill	Design	On Hold - TBC	Void beneath road - no access.
BRP/8	Barrowland Lane	Dorset	Demolition	Start of work to be scheduled	On Hold - TBC	Joint scheme with LA to create ramped access for new cycle route
BUI/26	Red Barn overbridge	Shropshire	Infill	Design	On Hold - TBC	
BS/477	Aldeby Bridge	Norfolk	Infill	Design	On Hold - TBC	Infilled on one side by 3rd party
CAL/21	Chilsworthy Road	Cornwall	Maintenance options under development	Design	On Hold - TBC	Assessment underway
CAP/13m69ch	Greig y Helfa Rd	Rhondda Cynon Taff	Infill	Start of work to be scheduled	On Hold - TBC	Partially infilled already.
CFU/3	Bardon Road	Leicestershire	Infill	Design	On Hold - TBC	
CJD/21	Station Bridge	Dumfries & Galloway	Potential Transfer			
COV/1	Old House Farm	Essex	Infill	Design	On Hold - TBC	
COV/13	Howis (or Puris Hill)	Essex	Infill	Design	On Hold - TBC	
CPI/344	Darcy Lever Viaduct	Bolton	Repairs	Design	2022 onwards	
CPI/347	Burnden Viaduct	Bolton	Repairs	Design	2023 onwards	Repairs and painting
CTD/3m23ch	Wenvoe Tunnel	Vale of Glamorgan	Repairs	Design	2022 onwards	
DAK/73	Threadmill Burn	North Ayrshire	Demolition	Design	On Hold - TBC	Demolition of abutments only
DAK/89	Cunninghamhead	North Ayrshire	Repairs	Start of work to be scheduled	21/22	
DAS1/5	Low Ashyard, Hurford	East Ayrshire	Infill	Design	On Hold - TBC	Infill with opening for cycleway
DCL/344RV	Lock Street	Wolverhampton	Strengthen	Design	2022 onwards	
DMB/5	Bonnington	South Lanarkshire	Refurbish	Design	2022 onwards	Listed structure
EAT/19	Eaton to Easton Road	Leicestershire	Infill	Design	On Hold - TBC	
EBD/756	Balmassie Road	Aberdeenshire	Infill	Design	On Hold - TBC	
EBD/761	Auchmacy	Aberdeenshire	Infill	Design	On Hold - TBC	
EDE/25	Great Musgrave	Cumbria	Infill	Work complete		
EHP/3	Knowle Viaduct	East Sussex	Maintenance options under development	Design	On Hold - TBC	Stabilisation of piers & bank seat - land slip
END/709	Station Road, Southfleet	Kent	Infill	Design	On Hold - TBC	Partially infilled already
EVL/2066	Wingmore Straight Hill	Kent	Infill	Design	On Hold - TBC	Partial infill with opening retained for access
FFD/26	Hambidge Road	Gloucestershire	TBC	Assessment	On Hold - TBC	
FFD/28	Green Lane / Dumpers	Gloucestershire	Infill	Design	On Hold - TBC	
FNS3/19m76ch	Whitchurch Bridge	Bath & NE Somerset	TBC	Assessment	On Hold - TBC	
FWW2/1711	Gateley Bridge	Norfolk				LA have agreed to install physical restrictions to prevent access by over weight vehicles (current restrictions not effective). If these prove effective then structure will not be infilled
GNQ4/17	Farground or Hampton House Farm	Shropshire	Infill	Design	On Hold - TBC	
GTB/77	Scotland Street	Glasgow	Infill	Design	On Hold - TBC	
GTB/78	Paisley Road West	Glasgow	Infill	Design	On Hold - TBC	
HBR3/123	Stubbs Road, Walden Stubbs	North Yorkshire	Infill	Design	On Hold - TBC	
HBR3/124	Malt Kiln Road, Little Smeaton	North Yorkshire	Infill	Design	On Hold - TBC	
HGG/2/1	Church Lane	East Sussex	Infill	Start of work to be scheduled	On Hold - TBC	
HIB/27	Southill Road	Bedfordshire	Infill	Design	On Hold - TBC	
HLP/5S	Station Road	Warwickshire	Maintenance options under development	Design	On Hold - TBC	
HOL/1073	Parkeston	Essex	Infill	Design	On Hold - TBC	
HTL/61	Ashfield Street	Glasgow	Potential Transfer			
HXH/4A	Wheatley Viaduct	Calderdale	Repairs	Design	2023 onwards	
IMD/433	Mill Tack Road	Aberdeenshire	Infill	Design	On Hold - TBC	
KLO/29	Melkington	Northumberland	Infill	Design	On Hold - TBC	
KLO/64A	Roxburgh Viaduct Footbridge	Scottish Borders	Repair	Work on site underway	Oct-21	Repairs to listed footbridge
LAN/105	Ridgegrove Road	Cornwall	Infill	Design	On Hold - TBC	
LAR/2	Glasgow Street	North Ayrshire	Infill	Design	On Hold - TBC	
LAR/84	Uplawmoor	East Renfrewshire	Potential Transfer			
LAR/85	Shiford	East Renfrewshire	Potential Transfer			
LAR/89	Japston	East Renfrewshire	Potential Transfer			
LPJ/2	Aurs Burn Viaduct	East Renfrewshire	Repairs	Work on site underway	Aug-21	Concrete repairs
MJC3/506	Cockwell Farm Rd	Northants	Infill	Design	On Hold - TBC	
MEP/15	Methley South Station	Wakefield	Infill	Design	On Hold - TBC	
MKT/415	Longwood	Telford & Wrekin	Infill	Design	On Hold - TBC	
MLT/63m15ch	Afon Dulas Road Bridge at Tylwch	Powys	Repairs	Design	2023 onwards	Scour repairs
NCL/81	Tregay Bridge	Cornwall	Infill	Design	On Hold - TBC	Infilled on one side by 3rd party
NDL/23	Hackney Bottom	West Berkshire	Infill	Design	On Hold - TBC	Local Authority previously advised that they had an interest but that they had an alternative route around this structure that would have negligible impact if infill were to proceed
PRD/4	Carmichael Street	Glasgow	Infill	Design	On Hold - TBC	Partially infilled already

ROY/20	Criggleshole Viaduct	Wakefield	Repairs	Design	2022 onwards	
RTS/36	Radford Road	Warwickshire	Infill	Design	On Hold - TBC	
SIE/2289	Blunfisham	Cambs	Stabilisation works	Start of work to be scheduled	21/22	Notable recent movement of substructure/wingwalls
SKK/4	Boleside Road	Scottish Borders	Refurbish	Design	2022 onwards	Refurbish and paint
SMB/2062	Braughing Station	Hertfordshire	Infill	Design	On Hold - TBC	
SNQ/4	Crossley Street	Wakefield	Infill	Design	On Hold - TBC	
SUX/17	Bridge Lane	Staffordshire	Infill	Design	On Hold - TBC	
SUX/4A	Bramshall Tunnel	Staffordshire	Repairs	Design	2022 onwards	
SYB/10	Sewerster Bridge	Leicestershire	Demolition	Design	On Hold - TBC	
THA/21	Horspath Bridge	Oxfordshire	Repairs	Start of work to be scheduled	21/22	
THA/22	Horspath - bridge over disused	Oxfordshire	Demolition	Design	On Hold - TBC	
THM/11	Cowfold	North Yorkshire	Infill	Design	On Hold - TBC	
TIV/10	Herne Bridge	Devon	Repairs	Design	21/22	Repairs to road approach
TNQ/4m60ch	Goshen Bridge	Cornwall	Infill	Design	On Hold - TBC	Infilled on one side by 3rd party
UCJ/6	Rome Street	Carlisle	Infill	Design	On Hold - TBC	
VAN/16	Afon Cerist ub	Powys	Demolition	Design	On Hold - TBC	
WFM/836	Stow Maries Halt	Essex	Infill with opening	Design	On Hold - TBC	Partial infill with opening retained for access
WFM/837	Cold Norton Halt	Essex	Demolition	Design	On Hold - TBC	
WFM/839	Norton Hall	Essex	Infill	Design	On Hold - TBC	
WHE/17	Port Hill	Hertfordshire	Strengthen	Work on site underway	21/22	Strengthen with box culvert
WHJ/26	Edge Lea Farm	Cheshire	Infill	Design	On Hold - TBC	
WHJ/6	Grindley Brook	Cheshire	Infill	Design	On Hold - TBC	
WMC/1329	Leeds Bridge	Norfolk	Maintenance options under development	Design	On Hold - TBC	Assessment underway
WMJ/48	Weedon	Warwickshire	Infill	Design	On Hold - TBC	
WTD/1	Bedcow	East Dunbartonshire	Infill	Design	On Hold - TBC	

Notes.

Assessment. This is when we undertake structural assessments to determine the capacity of a structure and identify any maintenance issues that we need to design a scheme to address. For example with a bridge, this type of assessment will determine the load it is able to carry and any points of weakness within the structure.

Design. This is the stage where we design work that needs to be delivered to address a maintenance issue. This stage will start at initial concept, identify options for any intervention required, determine the optimum solution and then result in a detailed design. During the development of the detailed design, we also engage the supply chain to agree pricing.

Start of work to be scheduled. This means that we have identified the most appropriate maintenance solution and designed the work in readiness for approval to schedule start of work on site.

Work on site underway. The planned work is underway on site.

Start of work scheduled. This means that work has been scheduled to start on site.

Work complete. Work on site has been completed.
